Media Alert: [SCHOOL NAME] aims to repower with renewables

What: [SCHOOL NAME] pledges to repower their school with 100% renewable energy following student led campaign. School to announce pledge at press event with [X number of students and speakers/dignatories ie principal/politician]
Where: Location
When: Event time
Media Opportunity: Describe the photo/video opportunity and who will be available for interview

School name will sign a pledge to repower their school with renewable energy day of pledge following a campaign led by students concerned about global warming. The pledge will be announced by Principal/teacher & student leader at an event with the school community on day that will be attended by MP NAME (If MP coming).

"We're really excited our school is stepping up to take leadership on climate change because it's an issue that will impact on our future" student leader name said.

"Students from across our school community took action to help make this happen which really shows young people can make a difference" student leader name said.

School name will now outline next steps following pledge to fulfill the repower pledge.

School name is taking the pledge as part of the nationwide, student driven Repower Our Schools campaign run by the Australian Youth Climate Coalition.

"Young people are the leaders of today. Students across Australia, like those at school name are taking action to repower their schools with renewable energy" Laura Sykes, Switched on Schools Director at the AYCC said.
